

A Real Cathartic

For the Blood

"Cathartic" comes from a Greek word that means "pure". It is a medicine that purifies or cleanses the digestive canal. Not all medicines that act on the bowels are real cathartics. It depends on the KIND of action.

The action of Thedford's Black-Draught really is cathartic. It does more, than merely stimulate. Its vegetable ingredients act upon the liver and the blood, purifying and cleansing, as well as stimulating and toning up their natural functions.

Thedford's Black-Draught regulates a disordered liver, relieves constipation, biliousness, sick headache, malaria, dizziness, indigestion, and drives out poisons from the blood.

Its immense popularity, for over 70 years, attests its true value and merit, in all disorders of stomach, liver and bowels, for which it has so long proved its usefulness.

Sold everywhere, price 25c and \$1. Try it.

Of course, the statements made above, do not apply to any of its spurious imitations. Look for the right name, on the genuine—Thedford's.

"In 1897 I had a stomach disease. Some physicians said Dyspepsia, some Consumption. One said I would not live until Spring. For four years I existed on boiled milk, soda biscuits, and doctors' prescriptions. I could not digest anything I ate; then I picked up one of your Almanacs and it happened to be my life-saver. I bought a fifty-cent bottle of KODOL and the benefit I received from that bottle all the gold in Georgia could not buy. In two months I went back to my work, as a machinist, and in three months I was well and hearty. May you live long and prosper."—C. N. Cornell, Rodling, Ga., 1906.
